

# VATCS (Vehicle Activated Traffic Calming Signs)

## Improving Highway Safety

### Dorman Varitext are UK manufacturers of Vehicle Activated Traffic Calming Signs

Vehicle Activated Signs are designed to provide drivers with a timely warning of Speed Limits and / or potential oncoming hazards. With a wide range of displays options from 300mm to 1200mm.

Dorman Varitext can fully support your requirements from simple product supply, through to installation, maintenance and options to include data capture.

All signs are Highways Agency approved and designed in compliance with The Traffic Signs Regulations, General Directions 2002 and the recommendations of Highways Agency specification TR2136c.

#### Why choose vehicle activated signs?

Vehicle Activated Signs can be used to remind drivers of speed limits, oncoming hazards and accident black spots.

Adding a data logger to the signs will give you the added benefit to analyse traffic flows and speeds of vehicles in the area, all from one unit.

Downloading data from the signs via Bluetooth PDA / Laptop or upgrade to your Web-based gateway will enable tables and graphs to be produced for full analysis and comparisons.

Further information on our products and services can be provided; please ask your Dorman Varitext Sales Manager for a demonstration or Data Sheet to answer your questions.

- Power Options:
  - Mains
  - Solar
  - Wind
  - Battery
  - Combination options available.

# VATCS

## Improving Highway Safety

The VATCS range provides you with a number of model options, these include:

- **Speed Roundel VATCS**

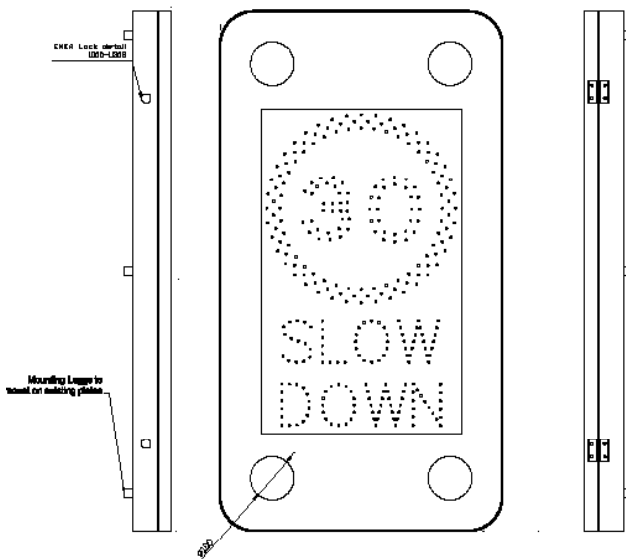

Designed for use in areas where there are problems with excessive speed - informs and reminds drivers of speed limits.

- **Hazard Warning VATCS**

Designed for use in areas where there are potential dangers ahead, the sign alerts drivers unfamiliar to the road of the possible dangers and acts as a reminder to regular users of the road.

- **Dual Legend VATCS**

Designed to display more than one legend to give added value, the Dual Legend option reduces costs and reduces street clutter.
