

Winter Health Check

Maximising the impact of your signage

At Dorman we fully understand that delivering value for money through increased service life of products is vital in the current economic climate and we are committed to helping you meet this target with our **Winter Health Check** service.

The volatility of the UK climate, especially the bad winters we have experienced in recent years, has meant Dorman signs are more important than ever in reducing accidents and the need to provide a clear and consistent message is paramount in modifying driver behaviour.

Optimum Sign Performance

Dorman is keen to ensure you extract the maximum benefit from our products and pivotal to this is the provision of maintenance visits ensuring your signs are ready for the rigours of the British weather.

The **Winter Health Check** covers all aspects of operation from electrical component diagnostics to a full cleaning service removing road grime and salt residue and for our solar solutions a complete battery replacement with peace of mind disposal feature.

- ✓ **Full VAS valet service, removing road grime & salt residue**
- ✓ **Increased service life**
- ✓ **Maximum sign availability**
- ✓ **Enhanced peace of mind**
- ✓ **And not forgetting – value for money!**

DORMAN

Maximising the impact of your signage

The Dorman range of signs is proven to be a valuable tool in increasing road safety and our Winter Health Check solution will maximise their usefulness.
