

Air Alkaline Batteries – Air Depolarized

Dorman's Batteries support the Company's comprehensive range of road traffic management lighting products

BENEFITS include

- > Maintain a constant light output throughout their life
- > 25 amp hour batteries give increased battery life, approximately 4-5 times better than zinc carbon batteries
- > 50 amp hour batteries give increased battery life, approximately 8-10 times better than zinc carbon batteries
- > Due to increased life, fewer battery changes are necessary, thereby reducing maintenance costs
- > With fewer batteries used in comparison to zinc carbon, disposal costs are considerably reduced

- > Every battery is date marked and carries a two year shelf life
- > Environmentally friendly: 0% mercury, 0% cadmium and reduced toxicity
